ABOUT THIS TRAINING

The Engage Program of Gett Involved Trainings provides an opportunity for you to create a new perspective about who you are and what you're truly capable of.

In just 7 days occurring across two powerful weekends, you will develop a new set of tools and ways of being that will support you in any challenge, enhance your relationships and get to another level of being your best self.

The program includes a series of experiential exercises, one-on-one sharing, small group interactions, guided visualizations and inspiring lectures, where you will be able to clearly see what has been holding you back and discover your full potential.

The training utilizes proven experiential techniques to support you in shifting your mindset and behavior, and therefore your results. Rather than simply learning about leadership from lecture.
